

Stonex hosts Open House with LumenRadio CRMX products Gothenburg, Sweden, 18 November 2010

Stonex, leading Spanish distributor and installer of entertainment lighting systems, hosts an Open-House with LumenRadio hands-on product demonstrations and training for all their customers on November 17-18th. LumenRadio personnel will be present and CRMX products for indoor and outdoor use will be shown with systems featuring premier brands like ETC and Clay Paky.

"Spain is a growing market for wireless lighting controls and Stonex is the driving force in establishing CRMX as the de-facto wireless standard in this market. LumenRadio's cooperation with Stonex has been very successful and we are excited to have been given the opportunity to participate in this Open House event. We will be conducting training sessions with customers who want to learn how to utilize the full potential of CRMX and its extensive support for DMX, RDM, DALI, and Ethernet protocols," explains **Anders Ardstål**, VPO of LumenRadio AB.

"LumenRadio is the technology leader in wireless lighting controls and we are proud to offer our customers all the benefits of the CRMX products. The interest in Spain for wireless systems is growing fast and with CRMX we make sure our customers have the most reliable and best performing system on the market", explains **Javier Latorre**, CEO of Stonex.

The Open House will be held the 17 & 18th of November at Stonex headquarters in Tres Cantos, outside Madrid, Spain. Please RSVP by e-mail to a.cliente@stonex.se or by telephone 091 428 10 50.

About LumenRadio

LumenRadio develops and markets next generation state-of-the-art wireless technology for the lighting industry. LumenRadio's CRMX is the most dependable wireless system on the market and is the only one to offer Automated Cognitive Coexistence. CRMX continuously and automatically adapts to the surrounding wireless environment, to never disturb or be disturbed by other wireless systems. LumenRadio offers a complete product portfolio of wireless lighting controls utilizing DMX, RDM, DALI, ArtNet, Streaming ACN, and other control and building management protocols for indoor, outdoor, and fixed installation markets world-wide.
