

LumenRadio is proud to announce that Stonex distributes the best-of class wireless technology CRMX Nova and CRMX Outdoor to the Spanish market. CRMX wireless DMX, RDM and DALI technology eliminates long cable runs and is able to provide full reliability in the the most challenging environments.

CRMX is the most reliable wireless lighting control on the market and includes Automated Cognitive Co-existence, which means that the wireless system automatically adapts to its environment and never disturbs or is disturbed by other wireless equipment.

”We have strong increased sales of our CRMX products during the past six months. Our CRMX outdoor series brought unparalleled reliability to the outdoor entertainment and architainment markets. We believe in a good cooperation with Stonex and increased sales in the Spanish market”, explained **Per Hultén**, CEO of LumenRadio.

LumenRadio has a wide variety of products with wireless lightning indoor control, outdoor and fixed installations, as well as DMX, RDM, DALI, ArtNet and much more.

“We are very proud to start a relationship with Stonex and bringing CRMX, the most reliable wireless technology on the market, into Spain. I'm confident that Stonex is the right company to work with and I'm excited about the opportunities I see together with them “, explained **Anders Ardstål**, Vice President of LumenRadio.

“From our broad experience distributing in Spain top branded and high-end products in the past 30 years, we strongly believe in long term relationship with our strategically partners. In this matter, LumenRadio is known as a professional and service oriented company, with a product range that perfectly matches our market needs”, said **Javier Latorre**, Engineering B.U. Manager of Stonex.
